LT AUDITOR+

NAS DEVICES
Real Time Auditing for NAS Devices

BLUE LANCE

THE CHALLENGE

In today's environments, data storage requirements continue to increase at a record pace due to the explosive growth of information needed to manage and operate organizations. Organizations increasingly depend on Network Attached Storage (NAS) devices such as NetApp® and EMC-Celerra® for efficient storage of their critical data. Ensuring the privacy, integrity and availability of sensitive and confidential files stored on NAS devices is key to meeting compliance and security initiatives.

THE SOLUTION

LT Auditor+ for NAS Devices is designed to provide detailed auditing and monitoring of NAS file system activity—delivering clear, concise, actionable intelligence. LT Auditor+ for NAS Devices deliver a bullet-proof audit trail, through easy-to-read forensic reports and real-time alerts, to precisely identify Who did What, from Where and When.

FEATURES

24x7 Monitoring with real-time alerts

Management Summary reports with drill-down capability

Over 100 security and compliance report templates

Translation and correlation of user activity into plain English reports and alerts

Multiple report formats including Excel, Word, HTML and PDF

Automatic report scheduling and delivery

Audit access to files, folders Enterprise-wide data consolidation

Comprehensive Auditing with Granular filtering

Audit the Auditor

Robust, fault tolerant and load balanced architecture

Multi-Manager-Agent architecture

Automatic audit policy deployment

Support for NetApp and EMC2

Celerra Systems

Transform your cryptic & chaotic logs to clear, actionable reports

THiNK: Ahead.
